Grading

Here is the grading guideline:

http://cs-server.usc.edu:45678/hw/hw4/HW4_Grading.pdf

Submission

You are required to submit your source code electronically to the csci571 account so that it can be graded by graders and compared to all other student's code via the MOSS code comparison tool. To submit your file electronically, enter the following command from your Unix prompt:

```
submit -user csci571 -tag hw4 MYFILE
```

where MYFILE is the name of the file you created for your homework. You can have multiple filenames separated by spaces, if you have more than 1 files to submit.

You also need to add a link onto your homework page, so graders can go to your website and grade your homework.
